

# Industrial Vacuum Systems for Semiconductor Manufacturing

## *COURSE MATERIALS*

The following materials are required.

- *Intelitek Vacuum System Training Kit* with:
  - Turbomolecular pumping station
  - Active wide-range vacuum gauge
  - Flexible bellows hose
  - Conical reducer fitting
  - 90-degree elbow fitting
  - Tee junction fitting
  - 4-way cross fitting
  - Blank flange
  - Centering ring with O-ring
  - Aluminum clamps
  - CF multi-way cube chamber
  - CF to KF tubulated adapter
  - Copper gasket
- Nitrile-gloves
- Screwdrivers
- Computer with Internet access

ⓘ **Note:** *Items in the Training Kit may vary.*
